Forwarding, customs and transport solutions

To ensure excellent delivery performance to your customer, Katoen Natie provides transport solutions in co-operation with professional carriers. These carriers are carefully selected based on their performance and their distribution network in each country. This means that different transporters may be selected, depending on the required service, country and/or type of goods to be transported.

Katoen Natie provides the total supply chain solution of forwarding, customs services, storage, handling and distribution. Delivery quality and reliability of the shipments are constantly monitored. Deviations are reported, in order to take the proper measurements or actions.

The selected carriers are integrated into our WMS system to ensure that, once packed, the goods are correctly identified. The labels generated allow full tracking & tracing as of the moment of dispatch up to the point of delivery.
